30-Day Habit Tracker · Access Guide

You just took control of your habits — and that already puts you **ahead of 99% of people**. Here's everything you need to open your tracker and start your first 30 days. It takes less than a minute.

Small habits. Limitless results.

YOUR TRACKER ACCESS LINK

[Download Now](#)

When the link opens, tap **"Make a copy."** This saves your own private tracker to Google Drive so all your progress is kept safe.

For the best experience

- 1 **Use a PC or laptop** if you can — it gives you the smoothest view of the checkboxes, progress bars, and layout.
- 2 **On mobile?** Copy the link and open it in **Chrome or Safari**, or open it directly in the **Google Sheets app**.
- 3 **Make your copy**, then start checking off Day 1. Your streak begins today.

One quick tip: avoid opening the link inside Instagram or other in-app browsers — they can break the checkboxes and progress bars. Always open it in Chrome, Safari, or the Google Sheets app.
